Hi Sean--We do not use Arena Disinfectant in the shelter. That was probably from before the cleaning crew started, since aides have cleaned out the kitchen shelves. The cleaning crew uses an animal friendly enzyme product which is working very well.

By the way, The Hermitage will not be using volunteers in any capacity in the shelter itself for the next few weeks, so you will not have to come in on the weekends. Thanks for all you have done for us. We will contact you in the future to see if you are still interested in volunteering in the shelter. Rosalie at The Hermitage
